**Alphabetical Index to Policy Statements** ............................................. i
I. Introduction

It is the mission of San Diego Unified School District to improve student achievement by supporting teaching and learning in the classroom. In order to achieve this mission, the Board of Education establishes policies and procedures.

Procedures are specific, detailed rules that put policy into practice; they tell how, by whom, where, and when things are to be done, giving step-by-step instructions and assigning specific responsibility. Administrative procedures set forth specific requirements and details that implement and enforce policies. The Board of Education has delegated to the superintendent administrative responsibility for the development, maintenance, and dissemination of district procedures. Individual procedures are available from the Board of Education Office. An Alphabetical Index to the administrative procedures is published annually on the web site by the Board of Education Office. All administrative procedures are available on the district’s web site at http://www.sandi.net/policy. The procedures are viewable and printable in Adobe’s (.pdf) format.

Policies are principles adopted by the Board of Education to chart a course of action; the board specifically is charged with this responsibility. District policy statements are presented in Section II of this document, followed by an index to these policy statements. The policy manual is available in Adobe’s portable document format (.pdf) on the district’s web site at http://www.sandi.net/policy. The document is fully searchable in this format.

The Board of Education is responsible and accountable for effectively governing the school system. The primary means by which the board exercises its power and fulfills its responsibility is through the policies it establishes. These policies are necessary for effective school governance and management and are interrelated. The policies of the school district set the foundation and basic commitments of San Diego City Schools, its view of people, goals, and philosophy.

Policies made by the board serve to:

• Establish direction, a “guide to action.”
• State a purpose or goal.
• Communicate what the board desires to achieve and why.
• Provide a rationale and framework for specific requirements.
• Establish basic controls and assign authority or general responsibility. The development of policy is a dynamic process, responsive to changing problems, issues, and needs. Thus, new policies are developed and previous policies reviewed and revised as necessary.

This document is a complete reference to district policies. All inquiries should be directed to the Board of Education Office, San Diego Unified School District, 4100 Normal Street, Room 2231, San Diego, CA 92103-2682 or to (619) 725-5550.

II. Policy Statements

The operation of the school system requires the Board of Education to establish policies for sound, effective, and efficient educational and business practices. The board of the San Diego Unified School District has established policies that are contained in this Policy Manual and are organized according to categories in the classification system of the National School Boards Association. There are 11 categories or sections; a short description of each follows.

A. School District (p. 4)

The policies in this section provide the setting and context for all other policies. School district policies are the structure and foundation of public education and of the district. They are the principles that underlie the operation of the district schools.

B. Board of Education (p. 11)

This section defines the bylaws of the board—its organization, practices, procedures, and ground rules for conducting meetings. Guidelines for some of the board’s closest relationships are given—relationships with the superintendent, attorney, advisory committees, consultants, and the media. Policies on the policymaking process are also set forth in this section.

C. General School Administration (p. 19)

Policies on the management of the district and its schools are delineated in this section. The district’s administrative structure, line/staff relationships and policy implementation are topics included in this section.

D. Fiscal Management (p. 25)

Issues related to the management of school district funds are addressed in this section, including policies on budget and the use, control and accounting of funds.
E. **Facilities** (p. 31)

These policy statements concern planning, construction and naming of new facilities. Related activities such as disposition, lease, sale and/or alternative utilizations are included.

F. **Instruction** (p. 37)

The policies in this category deal with the instructional program: goals, basic programs, special programs, activities programs, instructional arrangements and resources, curriculum development, guidance, academic achievement, and testing. The policies in this section, more than any other, will reflect the school system’s and school board’s mission.

G. **Support Services** (p. 66)

Noninstructional services and programs are covered by policies in this section. They include security and safety program, buildings, grounds and equipment management, material resources, transportation and food services, and communication/information systems.

H. **Students** (p. 74)

These policies deal with students: admissions and attendance, rights and responsibilities, conduct and discipline, student safety and welfare, and other student matters.

I. **Personnel** (p. 89)

The school board’s personnel policies are contained in this section for all classifications of staff. Issues addressed include work schedules/assignments, ethics, evaluation, health and welfare, grievance procedures, leaves and absences, and termination/retirement.

J. **Negotiations** (p. 107)

These policies pertain to the process of negotiating with employee organizations.

K. **Community Relations** (p. 110)

This section provides policies on relations with the general public and with community organizations and public agencies. There are policies on the school system’s public information program, community involvement in decision-making, use of school facilities, public solicitations, and public complaints.

A–1000  The legal basis for the establishment and organization of the San Diego Unified School District is Title 2 of the California Education Code and the Charter of the City of San Diego. The district serves youngsters from kindergarten through twelfth grade (K–12) who reside in thirty communities in an area of 197 square miles in the city of San Diego.

   a. San Diego Unified School District shall be the official name of the district. The district is also referred to as San Diego City Schools.

   b. San Diego Unified School District will establish and maintain a process for change of exterior or election boundaries as a result of annexation, deannexation, reorganization, or change of precinct boundaries ordered by the Board of Education or by San Diego County Registrar of Voters.

(Approved 3–88. Related Procedures 0560, 1100, 3110, 9010, 9015, 9055, 9060, 9062, 9375, 9410, 9430, 9610.)

Nondiscrimination

A–3000  In conformance with the principle of equal opportunity, which San Diego Unified School District believes is morally right, educationally sound, and consistent with the law, and in the implementation of this policy, all applicants for employment by San Diego Unified School District or for promotion within the staff of the district shall be accorded equal opportunity regardless of race, religion, creed, color, marital status, veteran status, sex, sexual orientation, gender, gender identity, gender expression, ancestry, national origin, ethnic group identification, age, mental or physical disability.

   a. In pursuance of district policies, the district commits itself to a program of affirmative action designed to increase the numbers of minorities, disabled, and women at levels of the classified and certificated work force where they currently are underrepresented. The district shall pursue an aggressive policy of identification, encouragement, and counseling of racial/ethnic minorities and women with potential for leadership for the purpose of increasing the proportion
of such personnel in supervisory and management positions. The affirmative action program of the district shall give consideration to the composition of the student population when establishing employment goals. This policy shall apply to recruitment, hiring, placement, promotion, tenure, demotion, transfer, layoff, compensation, fringe benefits, or any other term, condition, or privilege of employment.

b. San Diego Unified School District has established an affirmative action program to attain the ultimate goal of equal employment opportunity in the work forces of vendors, contractors, subcontractors, and suppliers. The Board of Education shall, as determined necessary, adopt reasonable rules and regulations for the enforcement and operation of this equal opportunity program.

c. An Affirmative Action Advisory Committee shall be established to annually review, monitor, evaluate, and report on the district’s affirmative action program to the Board of Education and the superintendent.

A–3100 The Board of Education encourages the participation of business entities owned by minorities and by women in the district sale of public financial issues. For Tax Revenue Anticipation Notes (TRANS), Certificates of Participation (COPs), and any other district public financial sales, the negotiated sale process is to be used to include Minority Business Entities (MBEs) and Women Business Entities (WBEs); MBEs and/or WBEs are to be included in the underwriting of up to 25 percent of the issue.

(Approved 8–31–93.)

A–3500 No student shall be excluded from participation in, be denied the benefits of, or otherwise be discriminated, harassed, intimidated or bullied against in district educational programs by reason of any of the following actual or perceived characteristics: actual or perceived sex, sexual orientation, gender, gender identity, gender expression, ethnic group identification, ancestry, national origin, race or ethnicity, religion, color, mental or physical disability, gender expression, gender identity, nationality, age, creed, or marital status, or on the basis of a person’s association with a person or group with one or more of these actual or perceived characteristics.

a. In order to ensure equal access to educational opportunity for all students, the Board of Education has adopted a policy governing equity in student placement.

b. Students shall be assigned to classes or sections of a course in such a manner that each class or section is representative as to gender and ethnicity of the
total population of students meeting the criteria for placement in each grade level, class, or course.

A-3550  In its commitment to providing all students and staff with a safe learning environment where everyone is treated with respect and no one is physically or emotionally harmed, the Board of Education will not tolerate any student or staff member being bullied (including cyber-bullying), harassed, or intimidated in any form at school or school-related events, (including off-campus events, school-sponsored activities, school busses, any event related to school business), or outside of school hours with the intention to be carried out during any of the above.

Such acts include those that are reasonably perceived as being motivated either by an actual or perceived attribute that includes but is not limited to race, religion, creed, color, marital status, parental status, veteran status, sex, sexual orientation, gender expression or identity, ancestry, national origin, ethnic group identification, age, mental or physical disability or any other distinguishing characteristic.

The district further prohibits the inciting, aiding, coercing or directing of others to commit acts of bullying or cyber-bullying, harassment or intimidation.

Any staff member that observes, overhears or otherwise witnesses bullying (including cyber-bullying), harassment, or intimidation, or to whom such actions have been reported must take prompt and appropriate action to stop the behavior and to prevent its reoccurrence as detailed in the applicable Administrative Procedure. Students who observe, overhear, or otherwise witness such actions must, and parents/district visitors are encouraged to report the behaviors to a staff member. At each school, the principal or principal’s designee is responsible for receiving and promptly investigating complaints alleging violations of this policy. Any form of retaliation in response to a report of such acts is prohibited.

(Approved 4–12–11. Related Procedures 0120, 7110.)

A–3600  The Board of Education will not tolerate subtle, overt, or covert acts of racism—institutionalized or personal and within or between groups—that debase individuals or groups.

Accordingly, it is the responsibility of staff, students, and parents to make immediate reports of racist acts as detailed in the antiracism procedure. It is the duty of administrators to take appropriate ameliorative action when such acts are reported.

(Approved 3–19–91. Related Procedures 0120, 7110, 7270, 7407, 7440, 7640.)
A–3700  San Diego Unified School District is committed to making the educational environment for students free from sexual harassment. The district prohibits sexual harassment as defined in the Education Code to mean unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature, made by someone from or in the educational setting.

The district prohibits conduct that has the purpose or effect of having a negative impact upon the individual’s work or academic performance, or that is sufficiently severe, persistent, or pervasive to create an intimidating, hostile, or offensive work or educational environment.

The district further prohibits sexual harassment that conditions a student’s academic status, progress, benefits, services, honors, program, or activities based on submission to such conduct.

(Approved 5–11–93. Related Procedures 0112, 6290, 6295.)

Philosophy

A–4000  The Board of Education supports the philosophy that education, in addition to providing academic skills and knowledge, should help students to value themselves and others, to realize the development of their talents and aspirations, and to become contributing members of society. The board is committed to the following beliefs:

a. All children will learn and show academic gains every year of instruction.

b. All children can benefit from a quality, integrated experience.

c. The amount of instructional time spent by students on their studies can make a difference in achievement.

d. School experiences and education do make a difference in the future lives of children.

e. A high level of instructional quality can be maintained even in an environment of decreasing resources.

f. Students learn at different rates and in different ways. Dropout prevention practices and other differential provisions should ensure opportunity for completion of educational programs.

g. Closing the achievement gap is a priority.

The Board of Education believes that children and staff of all races and ethnicities benefit socially, politically, and economically from integration programs. The district’s integration programs promote positive race/human relations, solicit the exchange of ideas, and respect diversity of opinion and culture. All students have the right to a quality education that ensures excellence in academic achievement and full participation in the democratic process. Quality in education demands equity in outcome where race, ethnicity, and gender are not distinguishing variables of student success.

The board believes we have an obligation to treat all children in an equitable manner (just, impartial, and fair). In order to ensure equity for all students the board has adopted the following goals for integration:

a. Improve student achievement and ensure equitable outcomes among students of all racial and ethnic groups.

b. Integrate students to reflect the racial/ethnic balance of the district’s student population.

c. Provide equitable access to education programs and services for all students.

d. Demonstrate positive race/human relations among students and staff of all racial and ethnic groups.

The board further believes that it is the responsibility of all district employees to actively support, promote, and demonstrate commitment to integration and ensure the accomplishment of district and site integration goals.

(Approved 1–26–93. Related Procedures 4105, 4106, 4107, 4235, 4236, 4262, 4310, 4311, 4312, 4585, 4587, 5411, 6020, 6135.)

The Board of Education believes that leadership in integration begins with the Board of Education and includes certificated and classified staff, site administrators, and central office administrators. Integration leaders actively participate in integration programs and concentrate their efforts and resources on reaching the four goals for integration.

(Approved 5–11–93. Related Procedures 0620, 4105, 4106, 4262, 4310, 4311, 4312, 5411, 6135.)

The Board of Education believes that policy-, decision-, and recommendation-making committees must reflect the diversity of the student population.

(Approved 5–11–93. Related Procedures 1100, 1320, 3105, 3110, 3300, 4230, 4505, 4605, 4815, 6215, 6400, 7226, 7610, 9055, 9060, 9062, 9066.)
A–4600 The Board of Education believes that full integration of a school is achieved when all students have equal status; receive the same high level of instruction; feel trusted, valued, and supported; and student representation in the decision-making bodies reflects the ethnic diversity of the school.

(Approved 5–11–93. Related Procedures 4000, 4050, 4097, 4105, 4106, 4107, 4110, 4230, 4235, 4236, 4262, 4310, 4311, 4312, 4353, 4585, 4587, 5411, 6020, 6135.)

A–4650 The Board of Education believes that racial isolation, occurring in communities that are either predominantly White or non-White (African American, Alaskan/Indian, Asian, Filipino, Hispanic, Indochinese, Pacific Islander), leads to the development of racial stereotypes, promotes inequitable practices, and is detrimental to the goals of the district. Racial isolation is harmful to students of every color.

(Approved 5–11–93. Related Procedures 4000, 4105, 4106, 4107, 4110, 4262, 4310, 5411, 6135.)

A–4750 The Board of Education believes that equitable access is predicated upon the belief that gaining the knowledge valued by society is a right and not a privilege. The district has an obligation to provide continuous support and information to enable students to be successful in the school system and reach their fullest potential.

Equitable access to programs and services requires the district to:

a. Widely disseminate information on options to assist students and parents in making educational choices.

b. Apply fair and consistent entry requirements to all.

c. Utilize teaching and learning practices that address individual and cultural differences.

d. Offer challenging courses and encourage all students to enroll.

e. Expect high levels of achievement from all students.

(Approved 5–11–93. Related Procedures 4050, 4235, 4236, 4262, 4585, 4587, 5411, 6020, 6127, 6135.)

A–5000 It is the mission of San Diego Unified School District to improve student achievement by supporting teaching and learning in the classroom. Construction

E–4000 The Board of Education, with the advice of the superintendent, shall purchase real property for school buildings, shall approve all building plans, and shall enter into contracts for the construction of school buildings that will adequately meet the physical and educational needs of students.

(Approved 3–88. Related Procedures 0005, 1570, 3000, 3105, 3115, 3410, 5625, 5626, 6190, 9015, 9055.)

E–4100 It is the policy of the Board of Education to encourage a balance between initial construction costs of new facilities and long-term energy costs while maintaining thermal comfort in the classroom conducive to a quality learning environment. To support the district’s continued goal to reduce overall utility consumption, maintain thermal comfort, and comply with the California Energy Commission regulation for all new schools (Title 24, Part 2, Section 53, of the State Building Code), the Board of Education establishes the following policy:

a. All new schools will be built based on the following:
FACILITIES

(1) **Base Temperature.** The effective temperature maximum is established at 78°F as the basis for determining whether a classroom is selected to get passive thermal mitigation measures and/or air-conditioning when future funding allows. Since it is not feasible to be within this temperature all of the time, a maximum deviation of up to 10 percent of the amount of time the students are in the classroom during the summer hours is established (i.e., if students spend 200 hours in the classroom during the summer, the temperature could exceed the 78°F effective temperature by up to 20 hours).

(2) **New Spaces and Schools.** Schools in Climate Zones 2 and 3 shall include air-conditioning. In Climate Zone 1, all new spaces and schools will have cost effective passive measures installed and be engineered so that they can be retrofitted for air-conditioning at a future date if they will not meet the above-recommended standard.

b. Exceptions will be made for specified areas requiring air-conditioned space—performing arts, auditoriums, and TV studios at new secondary schools—and on a case-by-case basis for other spaces and/or other kinds of facilities to address air quality and/or noise pollution.

c. Where appropriate, other public agencies that may contribute to the need for air-conditioning to mitigate reduced air quality and/or noise pollution will be contacted to assist in the costs associated with providing an air-conditioning system.

d. Planning for new construction, adding permanent or relocatable facilities, or modifying existing facilities will include consideration of the building’s energy efficiency, as delineated in Title 24, Part 2, Section 53, of the State Building Code, for natural, mechanical ventilation or air conditioning as determined during the planning process.

**Naming**

E–5000 The Board of Education shall consider all names recommended by the Committee on School Names and shall name all schools and facilities. The following criteria for screening school and facility names have been adopted by the Board of Education. A facility is defined as a building, auditorium, athletic field, or other structure or purpose-designated area at a school or support services location owned and operated as part of the school district.

a. Schools and facilities may be named for a location or for a person.
b. In naming a school or facility after a person, primary consideration should be given to those individuals who have made a significant contribution to education in the community, state, or nation. Documentation must accompany each suggested name.

c. Recognizing that the ethnic and cultural composition of a local school community will change and that school and facility names are permanent, the name selected should have broad acceptance in a multicultural society.

d. In the selection of a school or facility name, preference should be given to the names of persons who are deceased.

e. If a school or facility is demolished, the name may be used again.

f. Names of retired district employees are eligible to be considered three years after their retirement from the district.

The district desires that service learning methodology be linked and coordinated with instructional programs. The PARC model, which emphasizes Preparation, Action, Reflection, and Celebration, is supported by the district.

The district recognizes that service learning can help students develop skills, career awareness, and self-esteem. Service experiences can also motivate students by allowing them to apply their skills and knowledge to local needs and problems and showing them that they can make a contribution to their community by being part of the solution.

The district supports the integration of service learning activities with the curriculum to enhance the relevance of instruction and to meet standards in all subject areas. These activities will provide exhibits that can be used as portfolio entries and the basis for the senior exhibitions. Staffs are encouraged to collaborate with local public and nonprofit agencies in order to develop service learning activities that meet educational objectives and also support current community efforts to meet health, environmental, or public safety needs. This meets the district’s goal of helping to develop youths as contributing citizens and allows youths to be seen as resources in their communities.

Curriculum Design—Special Programs

Special Education Students

F–2510  It is the policy of the Board of Education to provide a free and appropriate public education to students with disabilities within its jurisdiction, regardless of the nature or severity of the disability. The local plan for special education, as adopted by the Board of Education, is the basis for the operation and administration of special education programs and related services. The superintendent shall ensure compliance with all applicable laws and regulations governing programs for individuals with exceptional needs including continuous child find activities that address the location, identification, and evaluation of all children from 0 through twenty-one years who are in need of special education and related services. An Individualized Education Program (IEP) or an Individualized Family Service Plan (IFSP), which specifies provisions for educating students in the least restrictive environment, shall be developed, reviewed, or revised for each individual with exceptional needs. The IEP is to be reviewed on at least an annual basis to evaluate the student’s progress. A reevaluation of each special education student will be conducted at least once every three years, or more frequently, if conditions warrant, to determine if the student continues to be a child with a disability and continues to need special education and related services. Students with disabilities and their parents shall be provided with safeguards throughout the identification, evaluation, and placement process. District curricula are based on state standards. The Board of Education approves the course of study for secondary school special education students.

F–2515  San Diego Unified School District will comply with federal and state laws regarding locating students suspected of having disabilities and with identification, assessment, and program development for all students, from 0 through twenty-one years, suspected of having disabilities. This includes students unilaterally placed by their parents in private schools who reside in the San Diego Unified School District. The district shall assist private schools in child find activities, accept referrals from private schools and conduct appropriate assessments. If the district determines that a student is eligible to receive special education and related services, a Free Appropriate Public Education (FAPE) will be offered through the Individualized Education Program (IEP) process if the student enrolls in a district school. A Special Education Services Plan (SESP) will be developed for eligible students whose parents decline the district offer of FAPE and unilaterally enroll their child in a private school. This plan may be reviewed annually by the district in consultation with the student’s parents. Pursuant to federal and state law, San Diego Unified School District shall allocate only a proportionate share of federal funds for provision of special education and related services to students with disabilities, ages 3 through twenty-years, placed by their parents in private schools. At such point the proportionate share of federal funds has been exhausted, services will not be available.
INSTRUCTION

F-2520 It is the policy of the San Diego Unified School District to educate all students in an integrated setting to the maximum extent appropriate and the least restrictive environment that ensures student success, which will enable them to become responsible, literate, thinking, and contributing members of a multicultural society. In accordance with this policy, the district will provide educational opportunities to all resident students, including those with special needs as required by state and federal law, specifically the Individuals with Disabilities Education Act, Public Law 105-17 and Section 504 of the Rehabilitation Act of 1973. For students with special needs, these opportunities include access to the variety of educational programs and services available to nondisabled students including nonacademic and extracurricular services and activities. Authority for the special education program is vested in the Board of Education and delegated to the superintendent. The Board of Education has delegated such authority to the superintendent or his/her designee to make changes that will ensure compliance with the law. Ultimate accountability for full compliance with this policy rests with the school board. All district staff will be held accountable for compliance with the law under this policy. A lack of compliance by district personnel with their required duties as prescribed by state and federal law and district policies and procedures shall result in corrective action or disciplinary measures as warranted. Reports on the status of special education programs shall be made to the board at regularly specified intervals.

Language Learning Opportunities

F–2599 The Board of Education recognizes that in addition to being academically prepared and fully proficient in English all students benefit from being proficient in another language. Opportunities to develop competencies in multiple languages enhance and contribute to the ultimate achievement of all students.

F–3085 It is the policy of the Board of Education that student groups scheduled to participate in Off-Campus Integrated Learning Experiences (OCILE) Programs each week will reflect the racial/ethnic diversity of the district. All students will be treated in an equitable and caring manner, and there will be activities that recognize and celebrate the cultural diversity of the student population.

(Approved 5–93. Related Procedures 4105, 4106, 4310, 4311, 4312.)

Independent Study

F–3100 The Board of Education authorizes independent study as an optional alternative instructional strategy (not an alternative curriculum) for students enrolled in any school K–12 and adult school in the district. Independent study provides individual pupils with a means to master state content standards, as well as a way to accommodate special interests, abilities, or individual needs, outside the regular classroom.

The district shall ensure that it provides independent study students with the same
access to existing services and resources as are available to all other students in the school in which the independent study students are enrolled. No school may provide funds or any other thing of value that a school district could not legally provide to a pupil or parent/guardian of the school district.

The superintendent or designee shall determine that the prospective independent study student understands the district’s requirements for independent study and is prepared to meet them. As prescribed by law, the superintendent or designee shall guarantee that each participating student has on file a current written Independent Study Master Agreement. Each written Master Agreement shall be signed prior to the beginning of independent study.

The Master Agreement shall specify the manner, time, frequency, and place for submitting a student’s assignments and reporting progress; objectives and methods of study for the student’s work; methods used to evaluate that work; and specific resources, including materials and personnel, that will be made available to the student.

The Master Agreement shall state the beginning and end dates for the student’s participation in independent study under the agreement. The maximum duration of a Master Agreement is one semester or one-half year.

To help each student succeed in independent study, the board establishes 20 school days as the maximum length of time that may elapse between the date an independent study assignment is made and the date by which the student must complete the assigned work. The Master Agreement shall include a statement to this effect. When circumstances justify a longer period of time, the superintendent or designee may extend the maximum length of an assignment.

The Master Agreement shall state that if any student misses two scheduled appointments with the supervising credentialed teacher, or twice fails to complete and submit assignments as scheduled, the superintendent or designee shall conduct an evaluation to determine whether it is in the student’s best interest to remain in independent study. A written record of the findings of this evaluation shall be retained as prescribed by law.

The Master Agreement shall specify the number of semester credits, or, for elementary grades, other appropriate measures of academic accomplishment, that the student will earn on completion of the agreement. Master Agreements, including subsidiary Assignment Agreements, must be consistent with the district’s adopted course of study.

The Master Agreement shall include a statement making clear that independent study is a voluntary educational alternative. No student may be required to participate in an independent study program. Independent instruction may be provided only if the student has the option of full-time classroom instruction available at all times.

a. Each school shall develop a written statement of its grading policy to be included in the school’s discipline study or faculty handbook. Site guidelines should include consideration of school-initiated absences, such as field trips and athletic events.

b. The purposes for evaluating and reporting student progress are to assist in guiding the learner’s academic, social, emotional, and physical development through communication among student, teacher, and parents and to strengthen relationships between school and home.

c. The standard for measuring progress of all students enrolled in regular classes shall be the expectancies (including proficiencies, differential proficiency standards, and higher level competencies) for the subject or grade level as developed for courses and special areas.
INSTRUCTION

F-7105 It is the policy of the San Diego Unified School District to ensure that all special education students have access to high-quality, standards-based curriculum, and are provided with appropriate instructional strategies and supports to reach the standards and to meet district graduation requirements. The district will provide reasonable changes, e.g., accommodations, adaptations, and modifications, as specified in the Individualized Education Program (IEP) or the Individualized Family Service Plan (IFSP), to allow the student the opportunity to access core curriculum and to demonstrate a mastery of standards.

The needed accommodation(s) will be included in the student’s IEP. The superintendent shall ensure that special education guides that support teachers and sites in developing required accommodations and adaptations for achievement of general education standards are developed and implemented.

(Approved 6-99. Revised 6-27-2000.)

F-7106 The San Diego Unified School District will adopt and implement alternative standards for special education students who are working toward a Certificate of Completion. Parents will be notified on an annual basis, beginning in the first year of middle school or junior high, of the student’s diploma/nondiploma status. Student progress will be reported as often as general education students of the same age or as specified in the Individualized Education Program (IEP). Alternative content standards will include, but not limited to, communication/social skills, personal/home management, career/vocational, community, and basic academics/functional skills. Achievement of alternative standards will be based on level of performance, e.g., independent, supported, participatory. Alternative assessment, as specified in the IEP, may include criterion-referenced tests, student work samples, authentic assessment, portfolio, demonstrate mastery of IEP goals and objectives, anecdote data, and interviews with friends, family and professionals.

(Approved 6-99.)

F-7107 Diploma-bound students will be graded in accordance with district policy. Accommodations, modifications, and supports needed to meet standards are determined by the Individualized Education Program (IEP) team and specified in the IEP.

a. Each student’s general education and special education teachers will collaborate to develop ways to implement the IEP-determined accommodations, strategies, and grading practices.
b. Student support shall be provided by appropriate special education staff and
general education staff to ensure the delivery of high-quality instruction,
frequent monitoring of student progress, and any IEP-specified grading practice
accommodations.

For some students traditional grading practices are appropriate. For others, alternative
grading practices, i.e., measuring level(s) of independence, assigning credit/no credit,
are recommended. Students who are working on the alternative standards will receive
a Certificate of Completion based on the student’s IEP objectives and program
performance.

(Approved 6-99. Revised 6-27-2000.)

F–7120 It is the policy of the Board of Education that every student shall maintain the highest

F–7200 The Board of Education endorses homework as an important part of the educational
program of students, to be assigned on a regular basis. The amount of homework is
increased from a few minutes per day in the early grades to two or more hours daily
in high school. Each school must develop a homework plan to ensure that the district
homework policy is fully and properly implemented. It is the responsibility of each
teacher to understand the school plan and to participate in it.

(Approved 3–88. Related Procedure 4720.)

Promotion/Retention of Students

F-7400 The policy of the San Diego Unified School District is to ensure the academic success
of every student. Students are expected to meet grade-level standards and receive the
early intervention and necessary instructional support to enable them to be successful.
Students who are not making adequate progress towards meeting grade-level
standards, after receiving appropriate instructional support and interventions, will be
recommended for retention at grades 1, 3 and 8. It is District policy that students will
not be retained more than twice. The decision to promote or retain shall be based on
consistently applied expectations for student achievement.

Procedures 4755, 4760, 6121, 6185.)
F–7410  The Board of Education requirements for promotion of students to senior high schools include completion of a specified number of credits and establish a minimum number of credits that must be earned to achieve each grade level and to graduate. The grade level of senior high school students shall be determined by the number of credits earned toward high school graduation.

(Approved 3–88. Related Procedures 4766, 4770.)

Graduation

F–7600  The Board of Education is the authority that prescribes requirements for promotion and graduation in accordance with provisions of the Education Code. Exercises planned and conducted to accomplish such promotions and graduations are the responsibility of the Board of Education. The principal has been delegated the task of planning exercises, which are conducted in cooperation with individual members of the Board of Education. Requests for deviation from these procedures must be submitted, in writing, by the principal to the Office of Instructional Support.

Standards of Proficiency/Competencies

F–7800  Each student shall demonstrate standards of proficiency, or for special education students, differential standards of proficiency as appropriate, in basic skills as one of the requirements for a high school diploma. The superintendent shall ensure implementation of a student progress review plan that provides for an assessment of the current progress of students toward meeting proficiency and graduation requirements.

F–7810  The San Diego Unified School District will ensure that every graduating student is proficient in the English language in order that he/she can effectively pursue a college-level education or successfully enter the job market upon graduation. This includes demonstrable proficiencies in the four skills of listening, speaking, reading, and writing related to state and district K–12 Language Arts Standards.

Therefore, beginning with the graduating class of 2000–2001, every graduating student shall meet established content and performance standards in Language Arts in order to receive a diploma.

Assessment and Testing
INSTRUCTION

F–8000 Board of Education policies govern the district’s total testing program, including adoption and implementation of tests administered in group settings for the purpose of measuring student academic aptitude, ability, achievement, or other attributes associated with assessing a student’s status for program placement. This policy does not apply to:

(1) individually administered tests that are governed by state and federal law;
(2) miscellaneous tests used by individual schools or teachers for their own purposes;
or (3) district competency or proficiency tests. Board of Education policy provides that the district shall ensure:

a. Participation of district and community representatives in the test review and selection process.

b. Observance of appropriate professional criteria underlying design and construction of test materials.

c. Provision of fair notice and opportunity to test vendors to present their products for consideration.

(Approved 3–88. Related Procedures 4000, 4053, 4815, 4835, 4845, 4846, 4850, 4848, 6505, 6510, 6527.)

F–8400 The Board of Education is committed to a standards-based district assessment system that is fair, objective, and accessible to all students. The assessment system shall provide all students with multiple and varied opportunities to demonstrate their knowledge and unique abilities. These assessments will link standards, curriculum, and instruction in ways that reflect the best instructional practices and document student progress toward meeting standards, including the progress of English language learners in attaining English language proficiency. Students with disabilities are included in general, state, and districtwide assessment programs, with appropriate accommodations, where necessary, and as delineated on the student’s Individualized Education Program (IEP). The system will monitor the effectiveness of educational programs and practices, provide the educational community with information to improve teaching and learning, promote the success of all students, and serve as the foundation for state and district accountability processes.

F–8500 The Board of Education is committed to assuring that all special education students have access to the California High School Exit Examination (CAHSEE) and are permitted the use of appropriate accommodations as delineated in their Individualized Education Plan (IEP) or Individualized Service Plan (ISP). Furthermore, the Board of Education is committed to assuring that such students who demonstrate attainment,
INSTRUCTION

through satisfactorily completed coursework in a high school curriculum, of the skills and knowledge otherwise needed to pass the CAHSEE be permitted to receive a high school diploma.

The superintendent shall develop and implement a waiver process for a student with a disability to waive the requirement to successfully pass one or both subject matter parts of the CAHSEE as prescribed by state law.

(Approved 4-03. Related Procedure 4850.)

F-8600 It is the policy of the San Diego Unified School District that English Learners enrolled in the district for less than one year, who are at the beginning level of English language proficiency, may be tested on the state-designated English standardized achievement test(s) with nonstandard accommodations in accordance with district programs and practices, state guidelines, and the manuals or other instructions provided by the test publisher(s).

(Approved 2-01.)

Program Evaluation

F–8800 The Board of Education is committed to monitoring the implementation and effectiveness of federal, state, and district programs and initiatives. The evaluation process shall provide evidence of the extent to which program objectives have been met and shall identify strengths and weaknesses in program implementation based on evaluation findings. Evaluation data may include, but not be limited to, relevant student assessment results and other noncognitive indicators (e.g., attendance data) and shall be disaggregated, as appropriate, by school, grade level, ethnicity, and English language proficiency level. Evaluation data may also include other factors that provide a fuller context for understanding the program or initiative, such as teacher experience and training, level of support and resources, and the opinions of staff, students, and parents/community. The evaluation product shall provide the Board of Education, program and school staff, and the larger school community with important information on the effectiveness of the district’s educational programs.

Research

F–9400 Approval to conduct research in the district shall be granted only when a study is in full accord with the established criteria and policies of the Board of Education. The number of research projects shall be kept to a minimum in order to minimize distracting students from their regular academic pursuits and to allow staff the opportunity to provide high-quality instruction and related services. The district
INSTRUCTION

reserves the right to utilize research results in whatever manner it deems advantageous to the educational program.

(Approved 3–88. Related Procedures 4930, 4934, 9010.)

Supplemental Educational Services for Program Improvement Schools

F-9600 The district offers supplemental educational services for program improvement schools in the second or third year of program improvement based on the amount of district funding available for this service. When the number of eligible students is greater than the amount of funding available for supplemental services, the district will offer services at all eligible program improvement schools, but will give priority to the lowest achieving low-income students based on districtwide performance levels to ensure that the neediest students are served equitably across participating schools.

Buildings, Grounds, and Equipment Management

G–3000 Board of Education policies and district procedures govern the service, maintenance, repair, and/or replacement of all district-owned property and equipment. These policies and procedures cover emergency and routine scheduled maintenance, repair, replacement or upgrade of buildings or building systems, equipment, or grounds necessary to: (a) protect children, staff, and the public against injury or loss of life; (b) protect the district against severe loss or damage to property or serious disruption to the school program; and (c) keep all district-owned buildings, grounds, and equipment in a usable and safe condition.
It is the policy of the Board of Education to encourage a balance between initial construction costs of facilities and long-term maintenance. To support the district’s continued goal of meeting current codes, laws, and regulations, increasing safety and durability, and reducing future maintenance costs, the Board of Education establishes the following requirements:

a. Systematic elimination of sand used as a fall zone material within facilities throughout the district.

b. Installation of lockable covers over all remaining and future sandboxes used for play in kindergartens and child development centers.

c. Replacement of sand, when eliminated as a fall zone material, with district-approved rubber matting to meet the needs of the district-required physical education curriculum and state-mandated physical fitness requirements.

d. Upgrading of all fall zone material under outdoor playground/physical education equipment with district-approved rubber matting.

e. Prohibition of sand as a fall zone material under any outdoor play equipment systems. With no exceptions, all outdoor play equipment systems must be placed over district-approved resilient rubber matting.

f. Provision of funding from regular maintenance funds for the regular and systematic maintenance/replacement of existing resilient matting which must be replaced because it no longer meets the required safety and protection standards.

c. All existing permanent fabric shade shelters in the district will be included in the “Needs Assessment” category for the 1998 Long-Range Facilities Master Plan as requiring replacement with an all-steel shelter.

(Approved 3–98.)

G–3100 It is the policy of the Board of Education to provide individual school sites with the ability to purchase, install, and maintain air-conditioning units in existing buildings. To support the district’s continued goal to reduce overall utility consumption and ensure basic standards for air-conditioning units, installation, cleaning, maintenance, and repair, the Board of Education established the following policy:

a. A preliminary energy analysis study is required prior to the purchase and installation of an air-conditioning unit. Part of the study will include exploring other systems to relieve areas of excessive heat load.

b. Minimum standards of building improvements are required to reduce utility costs and provide for the most efficient use of the air-conditioning units. Minimum standards include, but are not limited to, wall and/or roof insulation, reduction of solar gain through south- and west-facing windows.

c. The type of air-conditioning unit purchased must meet California Energy Commission-approved equipment standards.

d. Sites are required to pay for all up-front costs, including the energy analysis study, building requirements, and installation of the air-conditioning units.

e. Sites are required to pay the ongoing costs of monthly utility charges, regularly scheduled maintenance, and all repair and replacement costs, and to provide custodial times, as appropriate, to ensure regular and proper cleaning of all interior surfaces to reduce potential health risks.

G–3200 Structural and landscape pests can pose a significant problem to people and the environment. Toxic pest control chemicals can also pose a significant problem to people and the environment. It is, therefore, the policy of the San Diego Unified School District to incorporate Integrated Pest Management (IPM) procedures for the control of structural and landscape pests. Integrated Pest Management means that pest problems will be alleviated with the least possible hazard to people, property, and the environment by using IPM methods that are safe, effective, and economically feasible. Pesticides will be carefully evaluated before use and will only be used after nontoxic and other safer methods have been considered.

(Approved 10–91.)

G–3250 All district-owned property and equipment, consisting of buildings and building systems, grounds and site improvements shall be assessed on a recurring cycle not to exceed five years. At a minimum, the facility condition assessment (FCA) shall implement standards and a rating system that meets or exceeds the facility evaluation standards and rating defined by the Office of Public School Construction (OFSC). FCA shall be utilized by district facilities staff in short-range and long-range facility planning.

(Approved 4-08.)

Nonschool groups are not authorized to use school multimedia or instructional equipment; however, they may use housekeeping furniture such as chairs and tables.

In order to both reduce the environmental impact of solid waste disposal by the district and to instill environmental responsibility in students, the policy of the Board of Education regarding solid waste recycling is to:

a. Develop, implement, and monitor specific programs with the cooperation of staff, community organizations, and recycling agencies.

b. Implement recycling programs, balancing the financial costs and benefits with the environmental benefits.

c. Develop specific programs in compliance with city, state, and federal regulations, as well as existing Board of Education policies.

(Approved 9–94.)

Transportation

Subject to the availability of funds and applicable legal provisions, the district may provide student transportation by means of district-owned school buses or by school buses under contract to the district. San Diego City Schools policy is to maintain reasonable precautions to restrict access to “harmful matter” and to materials that do not support approved educational objectives. Staff will choose resources on the Internet that are appropriate for classroom instruction and/or research for the needs, maturity, and ability of their students. However, parents, students, and staff will understand that on a public network it is not possible to control all materials and will accept responsibility for complying with district procedures and with standards of acceptable use.

(Approved 7–89. Revised 4–4–95, 1–27–98. Related Procedures 4575, 4580, 7039.)

Attendance Areas

H–1500 The superintendent shall recommend to the Board of Education boundaries for the attendance district of each school and such changes in boundaries as are deemed necessary for the efficient operation of the school system.

(Approved 3–88. Related Procedures 0005, 3000, 3105, 4257, 4261, 4262, 6020, 6060, 6120, 6123, 6125, 6126, 6127, 6128, 6135.)

H–1501 All areas of the San Diego Unified School District shall be included in an elementary, a junior high/middle school and a senior high attendance area except those undeveloped areas where schools have not been designated or built, and which have been defined as unassigned. Attendance area boundaries shall be adopted annually by the Board of Education.

a. All students are required to attend the school serving the attendance area in which they reside unless enrolled in an approved integration program or excepted through established procedures covering interdistrict, intradistrict, or special attendance permits or are determined to be homeless. School-age children of homeless families will be encouraged to attend school and special dispensation shall be given to those students to expedite enrollment. Students residing in unassigned areas are assigned to an existing school by the Instructional Facilities Planning Department in accordance with district criteria.

b. Some sections of the school district are designated as optional attendance areas. Parents residing in such areas may choose one of two or more schools for which an area is optional. Once a choice is made, however, the school of choice remains the school of attendance for duration of the student’s attendance at that level (elementary, junior high/middle, or senior high). Conditions for transfer are the same as for any other student whose parents request a special attendance permit.

(Approved 8–88. Revised 5-22-2001. Related Procedures 0005, 3000, 3105, 4018, 4255, 4316, 4317, 4405, 6020, 6060, 6120, 6123, 6125, 6126, 6127, 6128, 6135.)

Charter Schools

H-1800 The San Diego Unified School District finds the district mission to be consistent with the intent of charter school law. Charter law was intended, among other things, to encourage the use of different and innovative teaching methods, to change from rule-based to performance-based accountability systems and to provide rigorous competition within the public school system. The district mission and charter school law share a common purpose designed to improve student achievement. The San Diego Unified School District supports the intent of charter school law and actively supports the development of district-authorized charter schools that provide innovative, high quality learning opportunities to the students of San Diego.
It is the policy of the Board of Education to provide for schools of choice within the district. All students shall have the right to attend their designated school of residence. Parents or guardians may apply through a random process to have their student attend any grade level appropriate school. Magnet school enrollment shall be by magnet application process. All enrollment shall promote the district’s voluntary integration goals. Transportation shall be provided for students eligible in integration or special education programs. Enrollment in schools of choice shall be based on the enrollment capacity of a school.

**Attendance—Admission/Withdrawal**

As delegated by the superintendent, the registration procedure and classroom assignment of students shall be determined by the site principal and shall be implemented by the principal and members of the staff within the limits of requirements of the State of California and the Board of Education.

(Approved 3–88. Related Procedures 4018, 6020, 6120, 6121, 6123, 6127, 6128, 6290.)

**Nonresident Students**

Students residing in other districts may not be admitted to the San Diego Unified School District unless an interdistrict agreement has been approved between the district of residence and the San Diego Unified School District. The San Diego Unified School District shall approve interdistrict attendance agreements without regard to race, religion, creed, color, marital status, sex, sexual orientation, national or ethnic code, age or disability, gender, gender identity, gender expression, or scholastic achievement. The district shall consider the effect of an interdistrict attendance agreement upon the district’s integration program. The net transfer of pupils in and out of the district in any fiscal year may not exceed 1 percent of the average daily attendance of the district. Homeless students living outside the district whose school of origin is within the district’s boundaries shall, upon the request of the students’ parents/guardians, be allowed to continue enrollment in those schools. In such cases no interdistrict agreement shall be required.

Documentation of a child’s citizenship or status in the United States shall not be requested or required.

(Approved 3–88. Related Procedure 6130.)
STUDENTS

Integration Programs

H–2550  Board of Education policy provides for the establishment of magnet school programs which offer specialized programs or an emphasis different from other schools, and a voluntary ethnic enrollment program which has the specific objective of improving racial balance at participating schools.

(Approved 3–88. Related Procedures 4105, 4106, 4250, 4251, 4261, 4262, 4310, 4311, 4312, 6135.)

H–2575  It is the policy of the San Diego Unified School District to reflect, at each school, the racial/ethnic balance of the district’s non-White (African American, Alaskan/Indian, Asian, Filipino, Hispanic, Indochinese, Pacific Islander)/White balance within a five percent span based on the annual “Pupil Racial/Ethnic Census Report” while maintaining at least a 50 percent resident population. If a school’s nonresident students exceed 50 percent of a school’s enrollment, the school site and community shall consider requesting the board for a waiver of, or exemption from, the 50 percent resident requirement.

Attendance—Absences and Excuses

H–3000  The policy of the Board of Education regarding school attendance is to:

a. Encourage parents, students, and the school personnel to work together in supporting regular daily attendance.

b. Enforce regular school attendance within existing city, state, and federal laws that require that every child in California between the ages of 6 and 16 attend school full time. Students between the ages of 16 and 18 must attend school either full time or part time until graduation from high school.

c. Authorize district staff to implement and enforce this policy with consistency and fairness.

(Approved 3–88. Related Procedures 6020, 6120, 6123, 6145, 6146, 6150, 6155, 6156, 6165, 6166, 6275, 6278, 6355, 6360, 6363, 6436.)

Attendance—Release of Students

H–3500  Under no condition is a student to leave the school grounds before dismissal without the approval of his/her parent or guardian and the principal or the principal’s specifically delegated representative except in the case of a student who wishes to
leave school to obtain confidential medical services. “Confidential medical services” shall mean those matters for which a minor may legally consent, and the consent of the minor’s parent or guardian is not necessary. Confidential medical services include seeking medical care or counseling for drugs or alcohol, sexually transmitted diseases or mental health for teens 12 years old or older, or care for sexual assault or reproductive health at any age. (See California Family Code § 6920 et seq., Chapter 3, Part 4, Division 11. See also California Education Code § 46010.1.)

a. It is the policy of the San Diego Unified School District that all campuses are closed. Students are to be on campus while school is in session. Students may be off campus for legitimate educational purposes such as work experience, field trips, and off-campus classes.

b. Early release of students from school for music lessons, dancing lessons, reading clinics, and similar programs conducted by nondistrict agencies and private schools is prohibited. Parents are encouraged to supplement the regular instructional program provided it does not interfere with the regular instructional day.

c. Students will not be granted release time to attend religious education.

(Approved 3–88. Revised 11–14–95, Revised 3-30-10. Related Procedures 4022, 4026, 4030, 4126, 4127, 4255, 4583, 5060, 6150, 6155, 6156, 6165, 6166, 6275, 6278, 6436.)

Attendance—Accounting

H–3600 The superintendent shall ensure that the district maintains an auditable attendance accounting system that is acceptable to state and federal agencies.

(Approved 3–88. Related Procedures 6165, 6166, 6170, 6527.)

Attendance—Exclusions/Exemptions

H–4000 Students may be excluded or exempted from formal instruction when necessary to ensure safety, well-being, and continuity of educational programs for district students and staff.

(Approved 3–88. Related Procedures 4257, 4605, 6180, 6185, 6355, 6360, 6363.)

Rights and Responsibilities

H–5000 Students are to be held responsible for abiding by legal and district rules and regulations. Acts in defiance of district policies regarding discipline or established school rules and regulations may result in suspension or other appropriate disciplinary action.
STUDENTS

(Student Free Speech

H–5100 State and federal laws and Board of Education policy govern the individual rights and responsibilities of students in the exercise of free speech on school grounds outside the classroom situation. This includes the distribution of literature, publicity, use of bulletin boards, nonschool publications, the spoken word, symbolic speech (buttons, arm bands, flags), and petitions.

(Assigned 3–88. Related Procedures 4350, 4353, 4360, 4361, 4710, 4910, 6210, 6230, 6240, 6250, 6270, 6290, 6295, 6298.)

H–5150 Secondary school students may meet on their campuses after school for a limited open forum for religious, political, or philosophical discussions. Implementation of the Federal Equal Access Act does not signify district sanction or endorsement of any particular religious, philosophical, or political belief discussed in these open forums. Nothing within the district policies shall be construed to limit the authority of the school (or of its agents or employees) to maintain order and discipline on school premises, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.

(Assigned 3–88. Related Procedures 4910, 6210, 6240, 6250, 6270, 9350.)

Student Involvement

H–5200 Board of Education policy includes scholarship and citizenship requirements for student participation in all cocurricular and extracurricular activities in secondary schools.

(Assigned 3–88. Related Procedures 2265, 4350, 4353, 4375, 4710, 4925, 6215, 6240.)

Clubs

H–5400 Accountability and responsibility for supervision and control of school clubs rests with the school principal, who operates under the delegated authority of the superintendent and the Board of Education.

(Assigned 3–88. Related Procedures 4350, 4353, 4910, 4925, 6210, 6240, 6250.)

STUDENTS

established school rules and regulations may result in student suspension or other appropriate disciplinary action.

a. In conformance with the district’s discipline policy, the school principal shall be responsible for establishing school rules and regulations that will ensure an educational program free from disruption for all students, and for enforcing consistently and fairly all district policy and school rules and regulations regarding discipline.

b. In support of district policy and to identify additional discipline standards based on local school needs, each school shall develop its own site discipline plan outlining specific rules for student conduct and the disciplinary actions to be taken when these rules are not followed.

(Approved 3–88. Related Procedures 4620, 4710, 4905, 4907, 5006, 5050, 5060, 5065, 5135, 5140, 6230, 6240, 6250, 6270, 6285, 6290, 6295, 6298, 7046; Emergency Procedures 6, 8.)

Gang-Related Dress and Behavior

H–6050 The district recognizes the importance of providing a school environment that will strongly discourage student gang-related dress and behavior. It is, therefore, a goal for the district and for each school to create a caring atmosphere for each student which will deter such involvement.

The Board of Education finds the wearing of gang-related signs, insignia, distinctive modes of dress denoting gang affiliation, and gang-related behaviors by students constitute a substantial disruption of school and school-related activities, and regulation of student dress is necessary for the health and safety of the school environment.

In conformance with the district’s discipline policy, each school community shall establish a school dress and behavior code that will eliminate gang-related behavior.

Parents of students who wear gang-related dress will be advised that the wearing of such apparel by their children place them at risk of unintended harm.

Each school’s principal, staff, and parents shall be involved in developing any dress code policy that requires uniforms.

Schools in the district shall adopt a dress code that may include the wearing of school uniforms. A school dress code policy that requires pupils to wear a uniform shall not be implemented with less than six months’ notice to parents of students currently enrolled. The school shall make available resources to assist economically disadvantaged pupils who cannot afford a uniform. The school dress code and uniform policy shall include a provision that no pupil shall be penalized academically or otherwise discriminated against nor denied attendance to school if the pupil’s
STUDENTS

parents choose not to have the pupil comply with the school uniform policy. The school dress code and/or uniform policy shall not preclude pupils that participate in a nationally recognized youth organization from wearing organization uniforms on days that the organization has a scheduled meeting.

(Approved 5–92. Revised 2–1–94, 5–9–95. Related Procedures 4710, 6230, 6240, 6270.)

Student Detention

H–6500 Students may be detained in school for disciplinary or other reasons for periods up to one hour after close of the maximum school day.

(Approved 3–88. Related Procedures 4022, 4026, 6270.)

Suspension

H–6800 The school principal, the principal’s designee, or the superintendent may suspend a student from school for a maximum of five consecutive school days. The Board of Education may suspend a student from school for any number of school days within the limits prescribed in the Education Code. A teacher may suspend a student from his/her class for the day of the suspension and the day following. During the period of suspension, the student shall not be returned to that class without concurrence of the teacher of the class and the principal.

(Approved 3–88. Related Procedures 6270, 6290, 6295, 6298.)

H–6810 Under conditions described in district procedures, the teacher of a pupil suspended from class for committing an obscene act, engaging in habitual profanity or vulgarity, disrupting school activities, or willfully defying authority is authorized to provide that the parent/guardian of the student attend a portion of the school day in the classroom from which the student was suspended.

(Approved 5–89. Related Procedure 6291.)

Weapons, Violent Acts, and Repeated Fighting

H–6950 The Board of Education hereby declares the San Diego City Schools to have a zero tolerance policy on weapons, violent acts, and repeated fighting. This policy shall apply to middle, junior, and senior high school students. Hereafter, all students who possess a firearm, knife, explosive, or any other dangerous object in school or at a school-sponsored function shall be immediately suspended and recommended for expulsion with the option of suspension of the expulsion if the student agrees to attend a district Zero Tolerance Program. For the purposes of this policy, an object used in a threatening manner shall be considered a weapon even if its normal use is not as a weapon.
STUDENTS

Hereafter all acts of physical violence and weapons will be recorded for every pupil on their permanent record, including information on suspensions and expulsions, but such information will not follow the student after graduation. The first offense for weapons and violence and the third offense for fighting that inflicts injury within one year shall require attendance in the Zero Tolerance Program for a minimum of one semester. Schools shall implement intervention strategies with students after the first and second incidents of fighting that inflict injury.

In addition, trespassing on school grounds by students who are not enrolled and are not cleared by the school office shall be a recorded suspendable offense and a third offense shall require attendance at a Zero Tolerance Program.

In every case where students in middle, junior, and senior high schools violate appropriate Education Code and Penal Codes referenced by this policy, they will be charged and arrested and taken to a juvenile detention facility or county jail.

This policy shall be publicized and each student shall have a signed copy of the policy in their cumulative file effective 1993–94 school year.

Possession and Use of Cellular Telephones and Other Electronic Signaling Devices

H-6980 Student possession and use of cellular phones, pagers and other electronic signaling devices on school campuses and school buses, at school-sponsored activities and while under the supervision and control of school district employees is permitted under the circumstance described herein.

All students may use these devices on campus before school begins and after school ends. Students in high school grade 9-12 also may use such devices during the lunch period.

These devices must be kept out of sight and turned off during the instructional program. Unauthorized use of such devices disrupts the instructional program and distracts from the learning environment. Therefore unauthorized use is grounds for confiscation of device by school officials, including classroom teachers. Repeated unauthorized use of such devices may lead to disciplinary action.

(Approved 12-03. Related Procedure 6270; Emergency Procedure 15.)

Expulsion

H–6900 Only the Board of Education may expel a student. The decision to expel a student shall be based on substantial evidence relevant to the charges adduced at the expulsion hearing before the Expulsion Review Panel. Final action to expel a student shall be taken in a public session meeting of the Board of Education. The Board of
STUDENTS

Education may approve placement of some students in an independent study program as an alternative to expulsion.

(Approved 3–88. Related Procedures 4316, 4317, 6270, 6295, 6298.)

Alcohol, Tobacco, and Drugs

H–6940 The Board of Education is committed to providing a positive school environment that encourages all students to reach their highest potential academically, physically, emotionally, and socially and to become productive members of society. The board believes that involvement and/or use of controlled substances will seriously impair students’ ability to achieve academically and to live healthy lives. The board will not tolerate the possession, use, or sale of alcohol, tobacco, or other drugs on district campuses. To this end the Board of Education approves a K–12 districtwide policy on alcohol, tobacco, and other drugs and designates the superintendent to enforce, monitor, and evaluate the district programs and procedures related to this policy.

The district policy will conform to all local and state laws and regulations governing elementary and secondary students. The goal will be to employ prevention and early intervention strategies, as well as progressive discipline and consequences including expulsion. The board shares responsibility for ensuring drug-free campuses and will work with school staff, students, parents, law enforcement/school police, public agencies, and community organizations.

Weapons, Violent Acts, and Repeated Fighting

H–6950 The Board of Education hereby declares the San Diego City Schools to have a zero tolerance policy on weapons, violent acts, and repeated fighting. This policy shall apply to middle, junior, and senior high school students. Hereafter, all students who possess a firearm, knife, explosive, or any other dangerous object in school or at a school-sponsored function shall be immediately suspended and recommended for expulsion with the option of suspension of the expulsion if the student agrees to attend a district Zero Tolerance Program. For the purposes of this policy, an object used in a threatening manner shall be considered a weapon even if its normal use is not as a weapon.

Hereafter all acts of physical violence and weapons will be recorded for every pupil on their permanent record, including information on suspensions and expulsions, but such information will not follow the student after graduation. The first offense for weapons and violence and the third offense for fighting that inflicts injury within one year shall require attendance in the Zero Tolerance Program for a minimum of one semester. Schools shall implement intervention strategies with students after the first and second incidents of fighting that inflict injury.
STUDENTS

In addition, trespassing on school grounds by students who are not enrolled and are not cleared by the school office shall be a recorded suspendable offense and a third offense shall require attendance at a Zero Tolerance Program.

In every case where students in middle, junior, and senior high schools violate appropriate Education Code and Penal Codes referenced by this policy, they will be charged and arrested and taken to a juvenile detention facility or county jail.

This policy shall be publicized and each student shall have a signed copy of the policy in their cumulative file effective 1993–94 school year.

Possession and Use of Cellular Telephones and Other Electronic Signaling Devices

H-6980 Student possession and use of cellular phones, pagers and other electronic signaling devices on school campuses and school buses, at school-sponsored activities and while under the supervision and control of school district employees is permitted under the circumstance described herein.

All students may use these devices on campus before school begins and after school ends. Students in high school grade 9-12 also may use such devices during the lunch period.

These devices must be kept out of sight and turned off during the instructional program. Unauthorized use of such devices disrupts the instructional program and distracts from the learning environment. Therefore unauthorized use is grounds for confiscation of device by school officials, including classroom teachers. Repeated unauthorized use of such devices may lead to disciplinary action.

This will include comprehensive programs of health services, health and physical education, food services, and staff training as appropriate, according to each student’s individualized school healthcare plan. b. The Board of Education provides for the exclusion of any student failing to obtain required immunizations within a specified time period until appropriate dose(s) of each vaccine has been received. Federal law, however, precludes the exclusion of homeless students who lack required medical records. Such students are to be admitted immediately and school officials are to assist their parents/guardians in obtaining the required documents.

Comprehensive School Wellness

H-7700  The Board of Education recognized the strong relationship between students’ nutrition/fitness/health status and their school attendance, access to education, and ability to learn. Good health, facilitated by both knowledge and practice of healthy eating and exercise behaviors and habits, is a major factor in helping students and staff function at optimal levels.

San Diego Unified School District will comply with the federal Child Nutrition and WIC Reauthorization Act of 2004, which promotes healthy eating and physical activity for staff and students and is based on the coordinated school health model.

PERSONNEL

I–1300 The Board of Education shall employ all personnel for the district on the recommendation of the superintendent and in keeping with the personnel policies of the district. The board shall adopt suitable policies for all district employees.

All employees shall be appointed subject to placement by the superintendent or the superintendent’s designee. Such placement shall be made in accordance with the employee’s qualifications and the needs and best interests of the students and the district.

I–1340 The policy of the Board of Education limits assignment of persons who are related by birth or by marriage to district employees. This policy applies to all assignments, including substitute and temporary hourly assignments of more than a few days’ duration.

General—Health and Safety

I–1350 Board of Education policy requires that safety must always be a part of and equal to any function or work performed by employees of the district.

a. The superintendent shall ensure that appropriate measures are established and maintained to provide for the safety and security of district employees and students.

(Approved 3–88. Related Procedures 4585, 4587, 5000, 5001, 5050, 5100, 5105, 5120, 5140, 5150, 5155, 5157, 5170, 6370, 7060, 7071, 7131, 7180; Emergency Procedures 3, 7, 8, 11, 16.)

In general, no documented transmission of AIDS virus has been noted except through sexual contact or introduction of infected blood products into the bloodstream. Casual contacts as usually experienced in school and work settings do not pose a threat to students or co-workers. Each instance of an employee with AIDS will be considered on a case-by-case basis. The district physician/consultant, in conjunction with the employee’s personal physician and public health personnel, shall determine that the employee is free of transmissible infection and does not pose a risk to students or other employees in the course of performing his/her duties. The superintendent will consider the recommendation of the district’s physician/consultant and the employee’s personal physician in making a final determination on the appropriate employment decision.

I–1370 The district recognizes that good health is a major factor in helping individuals, both students and adults, function at optimal levels. Research indicates that tobacco use and passive smoke can be detrimental to the health and well-being of the individual and to our society in terms of economic costs. The district recognizes the importance of providing classroom educational programs and a school environment that discourages tobacco product use. The Board of Education therefore endorses the tobacco-free district plan that emphasizes tobacco use prevention education, staff inservice, appropriate employee assistance, and as of July 1, 1996, the district adopted a tobacco-free environment for all sites/offices.

**General—Orientation/Inservice**

I–1400 The district provides general or districtwide orientation for new employees, and offers planned programs and activities designed to provide the opportunity for professional growth of an individual.
