--	--	--	----------------------------

The mission of the [Home/Hospital and Transition Support School](#) is to provide students with educational services during a time of crisis or transition.

Overview	<p>Home/Hospital serves K-12 students who are hospitalized or homebound due to a temporary medical condition and are unable to attend their regular school for an extended period of time. Transition Supports serves students with students with non-medical needs who require short-term educational services in a temporary setting. Most students are enrolled in the Home/Hospital & Transition Supports School for a short period of time before transitioning back to their regular school of attendance. To receive services, students must be enrolled in the Home/Hospital & Transition Supports School.</p>		
Educational Services	<p>Instructional content depends upon the student's grade level and individual need. Students typically receive educational services in the core academic areas such English/Language Arts, Mathematics, and History. Students receiving special education services are supported within the guidelines of their Individualized Education Program (IEP). To prepare students for a successful return to a regular school setting, staff collaborate with family, school, and agencies to ensure supports are in place for a smooth transition.</p>		
	<u>Home (Medically Homebound)</u>	<u>Hospital</u>	<u>Transition Supports</u>
