

**Federal Program Monitoring
 Notification of Findings**

County/District Code: 37683380000000		LEA Name: San Diego Unified		
Program	Item Identifier	Item Title	Item Findings	Due Date
Physical Education 2014--15 (PE)	VII-PE 06	Instruction - Middle and High School	<p>Status: Does Not Meet Requirements</p> <p>The law requires all middle and high school students in grades 7-12, unless otherwise exempted, to receive physical education instruction for no less than 400 minutes each 10 school days.</p> <p>Based upon a review of documents, on-site observations, and district/site level administrator/teacher interviews, the LEA has not provided sufficient evidence that all students in grades 7-12, unless otherwise exempted, are receiving physical education instruction for a minimum of 400 minutes each 10 school days at Crawford High and San Diego Science and Technology. These high schools are on 4 x 4 block schedules, where students receive all of their physical education in one semester. Unless the block schedule is changed to an A/B block schedule format (where students take physical education every other day for the entire school year) or students are enrolled in physical education classes for the entire school year, a physical education block schedule waiver must be submitted to the California Department of Education. Crawford High also allows physical education credit for students in JROTC courses. Because neither JROTC teacher at Crawford High has a physical education credential/authorization, only less than half of the class can be taught as physical education (i.e. the primary focus of the class must be JROTC per the teachers' credential areas). As such, JROTC students are receiving less than 400 minutes of physical education instruction each 10 school days (380 minutes at most). Physical education credit is a decision of the LEA, but all students, unless otherwise exempted, must receive a minimum of 400 minutes of physical education instruction each 10 school days.</p> <p>The LEA must provide evidence by uploading documentation in CAIS (e.g. revised master schedule/description, CDE physical education block schedule waiver, etc.) that Crawford High and San Diego Science and Technology are requiring all students, unless otherwise exempted, to take at least 400 minutes of physical education each 10 school days. The LEA must also provide evidence by uploading documentation in CAIS (e.g. revised master schedule/description, physical education credentials/authorizations for JROTC teachers, additional physical education minutes, etc.) showing that all JROTC students at Crawford High are receiving a minimum of 400 minutes of physical education instruction each 10 school days.</p>	02/02/2015

The means by which a finding is resolved is the responsibility of the LEA unless specified in law.
 Authorized LEA staff may request suggestions from CDE staff on the resolution of findings.
